Meteorologist's View

Although rain/showers will be scattered through the day, they will still make slopes and paths wet. Thus, care should be taken and appropriate footwear should be worn.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Sunday 11 Jul 2021

Weather: Clear spells first thing, but turning cloudier through the early hours. Predominantly dry with just the odd shower possible through the morning. Remaining cloudy through the day with patchy rain moving in during the afternoon and persisting into the evening.

Maximum wind: Winds on the summits southerly 15mph, gusting 25 mph.

Chance of cloud free mountain/hill tops above 600m: 30% through the early hours, increasing to 60% from then on.

Visibility: Low cloud with bases 400-500m covering the park through the early hours, bringing poor visibility to summits and higher slopes. This cloud generally lifting to above the summits toward midday, but with scattered amounts remaining at lower levels at intervals through the day. Visibility also lowering in the rain developing through the afternoon and evening.

Temperature: **Valleys:** Plus 13 Celsius, rising to plus 18 Celsius.
At 600m: Plus 10 Celsius
Freezing level: Above the summits
